June 1, 1860				3	214	3	214
June 1, 1850				II	221	II	221
June 1, 1840					28-31		28-31

1/

The dates of the first five censuses were as follows: August 2, 1790; August 4, 1800; August 6, 1810; August 7, 1820 and June 1, 1830.

*Total, white and colored populations of the counties are included for the years 1790-1870 inclusive.

1/Baltimore City, 1790-1830 inclusive: 1790 - First Census, p. 9; 1820 - Fourth Census, p. 21; 1800, 1810 and 1830 - Figures from C. E.Batschelet, Geographer, Bureau of the Census, Washington D. C., 5/8/34.

The proportion of colored, other than negroes, in the population of Maryland, has always been very small. In 1930 these included 492 Chinese, 327 Filipinos, 56 Mexicans, 50 Indians, 38 Japanese and 14 others. The negroes numbered 276,379.

The populations of towns were not given separately until they concurred with the definition of "urban" as consisting of 5,000 inhabitants or more. Until the groups numbered 5,000 they wer included in the "rural" figures for the county.

Annexations are known to have occurred to towns of over 5,000 population in the years listed below:

Town	Date of annexation	Town	Date of annexation
Baltimore	1816; 1888; 1919	Frederick	1924
Cambridge	1927	Hagerstown	1914
Cumberland	1921; 1929	Salisbury	1927

Census figures for all incorporated towns of Maryland, from 1790 through 1930, will be given in Table 3.

May 8, 1934 - Maryland State Department of Health for State Planning Commission.

POPULATION OF MARYLAND 1790-1930
